

Specialist Equipment Suppliers

'to the Semiconductor & Thin film industries'

"The customer is the unit of measurement for every decision and action made, enabling us to customise our response to you."

About Us

Megatech Limited are the largest independent suppliers of equipment and services to the semiconductor and thin film industries in the UK.

Established in 1973, we have built a well-founded reputation for the supply of quality products, in-depth technical expertise, and excellent customer service.

Our global presence gives us the competitive edge when it comes to responding to various sectors and their demands for equipment and services.

We hold exclusive distribution agreements with some of the biggest supplier brands in the semiconductor industry and are positioned in such a way where we are the go-to company for many applications.

What we offer

Our Services

Our expert team can offer various services depending on the proposal at hand. Most contracts we are involved in are bespoke requests to aid in the supply of equipment or services.

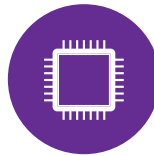

However, our services are broad and hopefully we can assist you with your project at hand. Whether that's fitting out a fabrication plant with certain product lines or offering our technical knowhow to solve a market gap.

Expert Pre- and After-Sales Support

From initial enquiry through quoting, ordering, and delivery, our experienced staff will provide you with detailed information and advice to assist you in making the best choice of product or service for your requirements.

We also supply assistance with installation, commissioning, and training where required.

Exclusive Supplier Product Lines

Megatech are the exclusive distributor for our product lines in the UK, and for some products this extends to Europe and/or the rest of the world.

We have built strong relationships with our suppliers which benefits our customers.

Trouble-Shooting and Service by Factory-Trained Engineers

Megatech staff are trained by our suppliers so that we can provide in-depth support for all our products.

Whether this is on-site service, remote support, or comprehensive repairs carried out at our facility in the Midlands, you can be sure that you will receive the best service available.

Application/Project Analysis and Technical Advice

Our experienced and knowledgeable staff are able to analyse your application and provide expert advice on the best solution.

With in-depth knowledge built up over decades of experience we can offer a professional service focussed on your specific requirements and budget.

Decades of Experience in Semiconductor Equipment Sales and Support

Megatech were founded in 1973 and have accumulated decades of knowledge and experience in serving the Semiconductor industry. We have long standing relationships with customers and suppliers that allow us to provide a service second to none.

E-commerce Platform

Our online shop enables customers to purchase a selection of exclusive product lines given to us from our suppliers. The brand Megapack sells Entegris items such as chip trays and wafer storage options.
